

Assignment 13

Getting Started with for Loops

Due before class on July 7 (Monday)

This week you learned about the **for** loop, and how to process **Strings** using **charAt()**, **substring()** and **indexOf()**. Complete the following five exercises in the **String2** section of <http://www.javabat.com>:

- **catDog**
- **countCode**
- **xyzThere**
- **bobThere**
- **xyBalance**
